

# Weekly Usage Recommendations

## Blended Learning Model

Lexia PowerUp Literacy accelerates literacy gains for students in grades 6-12 who are at risk of not meeting College-and Career-Ready Standards. The goal is for students to work in online activities for 75-135 minutes each week and to complete Lexia Lessons® and Lexia Skill Builders® as recommended. Planning for the implementation of each component is key to student success.

 Online Program	ZONE	MINUTES/STRAND
	Foundational	45
	Intermediate	35
	Advanced	25
 Blended Learning Instructional Materials	Lexia Lessons	<i>avg 15-20 minutes/lesson</i>
	Lexia Skill Builders	<i>10-15 minutes</i>
 Teacher Review of Data in myLexia	5 minutes per class	

-  **Online Program**  
Students work in 3 strands (Word Study, Grammar, and Comprehension) in online program, so the total weekly recommended usage is 75-135 minutes.
-  **Lexia Lessons**  
Lessons are designed to take 15-20 minutes to deliver. The number of lessons recommended each week will vary depending on student needs.
-  **Lexia Skill Builders**  
Skill Builders are organized by section (denoted by a capital letter) that build in complexity. To stay within the recommended 10-15 minute range, assign 2-3 sections at a time.
-  **Data Review**  
Teachers should plan on monitoring each of their classes for a minimum of 5 minutes per week. The 5 Minute Check-in allows teachers to see who needs more time online, who would benefit from a Lexia Lesson, and who is ready to practice with a Lexia Skill Builder.
