

# Guidance for Considering the Use of Lexia<sup>®</sup> RAPID<sup>®</sup> Assessment During Remote Learning

Lexia Learning understands that, whether you are in the classroom or supporting students remotely, you are at the heart of student success, and we are committed to helping you ensure the continuity of student learning. Both Lexia<sup>®</sup> Core5<sup>®</sup> Reading and Lexia<sup>®</sup> PowerUp Literacy<sup>®</sup> can be used from home as part of a remote learning implementation.

Gathering formative data on student needs during periods of remote learning is a particular challenge. As an online, untimed, adaptive tool, Lexia<sup>®</sup> RAPID<sup>®</sup> Assessment can provide information about student progress and needs that may be difficult to gather in other ways at this time.

However, we also recognize the critical importance of data integrity and equity across students and understand that it may be difficult to ensure that out-of-school testing environments support all students in presenting the best and most accurate representation of what they know.

## Consider the following questions when deciding whether to administer RAPID:

- ☐ **Do your students have access to the technology and internet resources required for RAPID administration?**
  - ☐ RAPID requires a stable internet connection on a supported device.
  - ☐ Here are the [RAPID System Requirements](#).
- ☐ **What question(s) do you want this data to answer?**
  - ☐ RAPID is a universal screener designed to answer specific questions about a student's risk level and reading and language profile.
  - ☐ The [RAPID Administrator Quick Guide](#) may help determine if RAPID will meet your needs.
- ☐ **What grade levels are you interested in assessing?**
  - ☐ RAPID has two tests, K-2 and 3-12, each with different administration requirements.
    - ☐ Here is additional information on administering the [K-2 test](#).
    - ☐ Here is additional information on administering the [3-12 test](#).
- ☐ **Has your school or district administered RAPID before?**
  - ☐ Will teachers be comfortable with supervising remote administration?
  - ☐ Will administrators and teachers be comfortable with interpreting the results?

## Remote Administration Guidance

The administration of RAPID presents logistical considerations that should be addressed before testing begins, especially for younger students. However, after considering these questions, if you are interested in remotely administering RAPID, you can use these resources:

- [Educator Guidance](#)
- [K-2 Tip Sheet](#)
- [Family Guidance—English](#)
- [Family Guidance—Spanish](#)

For any additional questions not addressed by these resources, please reach out to the Lexia Customer Support team ([support@lexialearning.com](mailto:support@lexialearning.com)).
