

Lexia® Decodable Readers

Assembly Instructions

Lexia Decodable Readers give students additional opportunities to practice foundational reading skills. For single-sided printing, follow these steps to assemble each student reader. A companion guide for educators is available on the [Core5 Resources Hub](#).

Steps for Single-Sided Printing

① Fold

Fold each printed page in half. The illustrations should be on the outside.

② Stack

Stack the folded pages in numerical order with the folded edge on the right. Even page numbers (2, 4, 6...) should be in the bottom right corner.

③ Staple

Staple the stack of folded pages along the left side.

Assembly Instructions

Steps for Double-Sided Printing

Note: Set printer to flip on short edge.

1 Stack

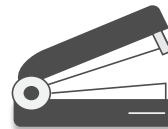

Stack the page spreads. The front and back cover should be on top.

2 Fold

Fold the stacked pages with the folded edge on the left.

3 Staple

Staple the stack of folded pages along the left side.
