Lexia® English School Overview

How much is my school using Lexia English and what is the impact of this usage?

Where to Begin

The Lexia® English School Overview report in myLexia® allows you to monitor usage and skill-based progress at the school level. This report will help you answer the following questions:

> How much have students in my school used the program?

> Is my school's usage translating into progress?

> At what proficiency levels are students working?

> How often are educators in my school accessing myLexia to view reports?
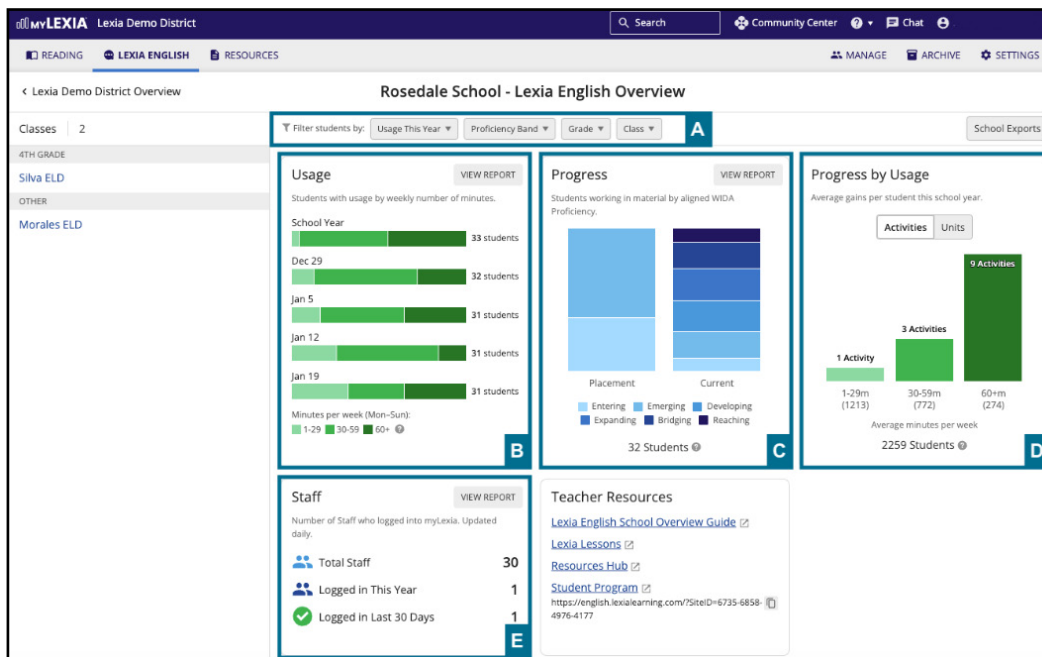

Understanding the Page

A. Use **Filters** to create customized reports by Proficiency Band, Grade, and/or Class.

B. **Usage** shows the average minutes per week in three categories of usage (1-29 minutes, 30-59 minutes, 60+ minutes).

C. **Progress** displays how the number of students working in material associated with each proficiency band (WIDA, CA ELD, TX ELPS, ELPA21, NY ESL) has changed since placement.

D. **Progress by Usage** shows the average number of activities and units completed based on the three usage categories.

E. **Staff Logins** shows the number/percentage of staff logins in the past 30 days out of the total staff.

Understanding the Purpose

Use the School Overview report to:

- Review proportion of students working on content associated with each proficiency band
- Consider average student usage and its connection to progress
- Access information on staff program engagement
- Filter reports by proficiency band, grade, and/or class

> **Lexia Help Center**

> **Contact Support**

# 1. How much have students in my school used the program?

Usage tracks student usage trends. The School Year bar displays the average number of minutes of usage per week in the current school year by color-coded categories (1-29 minutes, 30-59 minutes, 60+ minutes) The bars below display the minutes per week for the last four weeks by color-coded categories.
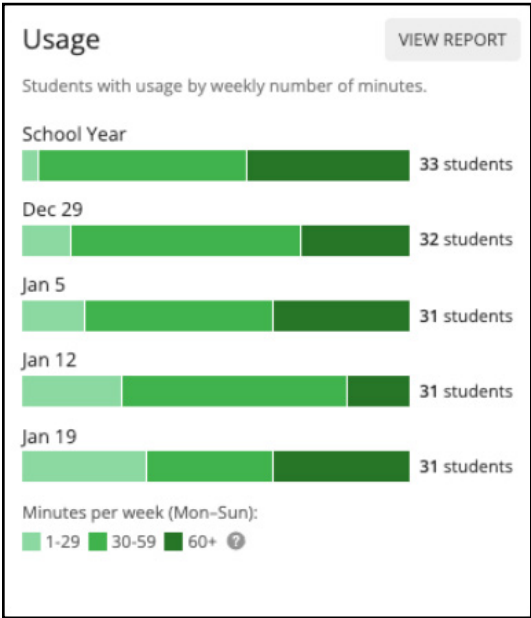

▶ Roll over each color-coded band to see how many students' averaged minutes fell into each group over the entire school year.

▶ Roll over the bands in each week to see the number of students whose usage fell into each group for each week (Monday to Sunday) during the last month of usage.

For more detailed information, select **View Report** to see the School Usage report.

▶ View weekly usage over the entire school year.
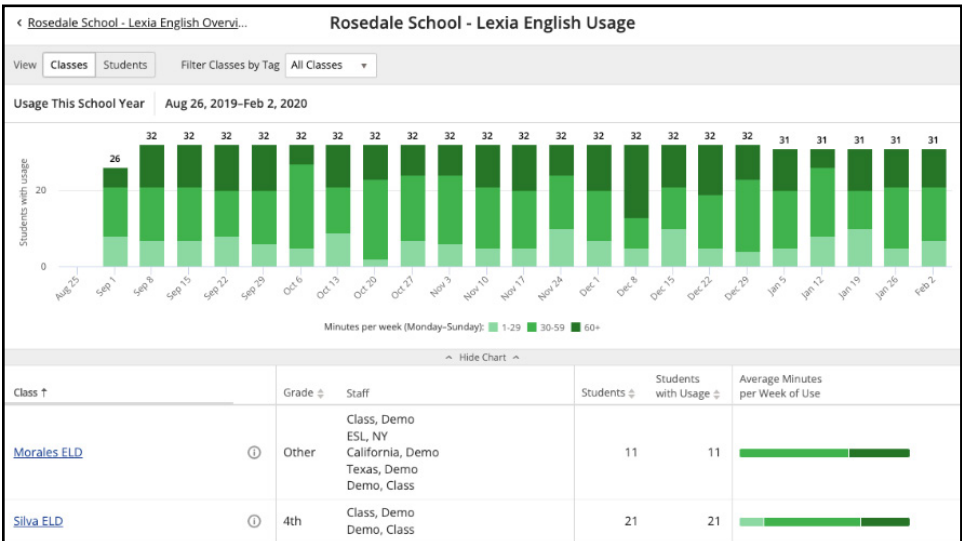

What to do next:

To filter down to classes tagged for Lexia English use, select the **Filter Classes by Tag** dropdown at the top of the report.

2. At what proficiency levels are students working?

Progress shows the number of students working in material associated with each proficiency band of the language standards used by your district (WIDA, CA ELD, TX ELPS, ELPA21, NY ESL).
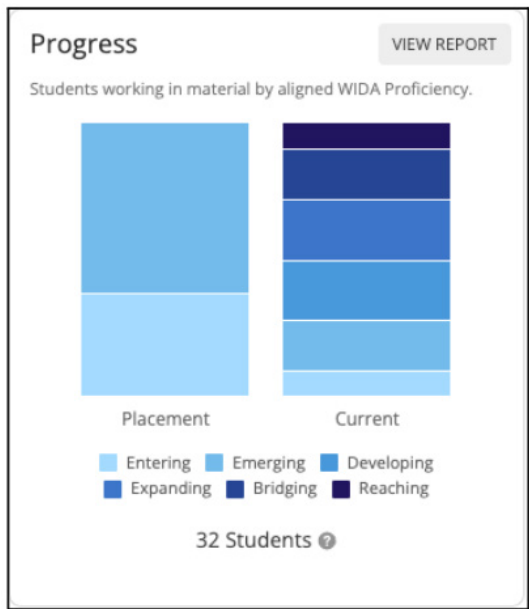

- ▶ Roll over color-coded band to see the percentage of students working in material associated with that band.

- ▶ Review and revisit the progression to higher proficiency bands as the year progresses.

- ▶ Note that the proficiency band label for some program levels will vary based on whether students are in grades K-2 or 3+ in accordance with the associated **proficiency standards.**

Select **View Report** to see the School Progress report.

- ▶ See individual student progress across K-2, 3-5, and 6th+ grade bands.

- ▶ Filter by grade level within a band.

- ▶ Monitor student gains this school year by Unit and Encounter.

What to do next:

See where students placed and how many levels they have completed since they started using Lexia English. Consider the percentage of students working in material by proficiency band and how that information could further inform your school's instructional planning. Reference the **Usage and Progress Guidelines** document on the Resources Hub for more information about usage recommendations and progress estimates.

3. Is my school's usage translating into progress?

Progress by Usage Usage displays the number of Activities students are gaining based on their category of average weekly usage (less than 30 minutes, 30-59 minutes, or 60+ minutes).
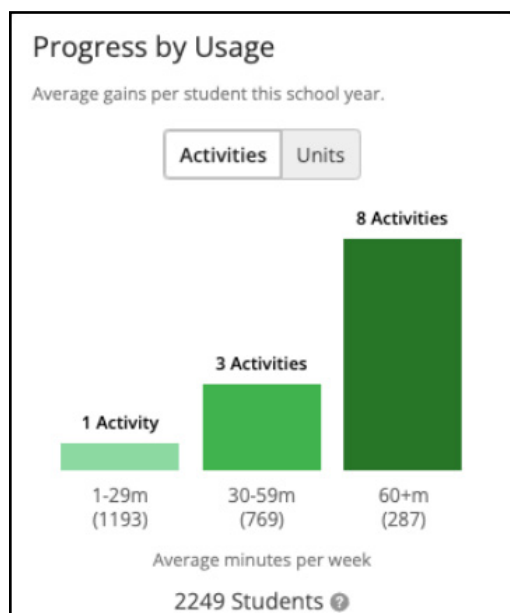

▶ View the **Activities** students have completed within a Lexia English program level. (Note that each Activity includes 3 Encounters.)

▶ Toggle to the **Units** selector to see an even more granular view of progress through the program based on Usage.

4. How often are educators in my school accessing myLexia to view reports?

▶ Click **View Report** to access details about individual staff members' login activity for myLexia for the last 30 days.

▶ **Review Logins in the Last 30 Days** and **Last Access** as an indication of staff usage.
